

## Membership Fact Sheet

Each member company brings a unique contribution to CommonWell Health Alliance® and is committed to supporting interoperability for the common good.

As of March 2017, CommonWell had more than 60 members, representing two-thirds of the acute care EHR market<sup>1</sup> and more than one-third of the ambulatory care EHR market,<sup>2</sup> as well as market leaders and technology innovators supporting care settings such as post-acute care, imaging, perinatal, laboratory, retail pharmacy, oncology, population health, emergency services and others across the care continuum. For a complete listing of all current member organizations, visit our [members page](#).

**Membership Categories:** Contributor and General memberships available

**Who Can Join:** All organizations that share the association’s vision and mission for interoperability, including:

- Health Information Technology (health IT) suppliers such as Electronic Health Records suppliers, Hospital Information System (HIS) suppliers, etc. and HIT-enabled service suppliers, such as pharmacies, laboratories, etc.
- Health care providers, such as physician offices, post-acute facilities, clinics, hospitals, EMS, etc.
- Other health-focused organizations, including non-profit and private institutes, innovators, governmental entities, HIEs, etc.

**Contributor Members:** Demonstrate commitment to adoption by supporting design, development, application and deployment of technology that would implement the services and comply with CommonWell specifications. This level is intended for organizations that are committed to utilizing services developed through the Alliance.

### Benefits

- Eligible to chair, be a member of and vote in Committees and Working Groups
- Have the ability to participate and vote on substantive issues, policy matters and official positions within the respective Committees prior to final adoption by the Board
- All benefits given to General Members

**General Members:** Demonstrate commitment to furthering the mission of CommonWell by proposing revisions or new proposals for specifications, test suites and design guidelines. This level is intended for organizations to share complementary perspectives to feed into the evolution of Alliance specifications and policies.

### Benefits

- May attend and participate in Committees and Working Groups, but not in a voting capacity
- Have the right to be nominated for and potentially elected onto the Board of Directors, when qualifying Board seats become available
- Have the right to submit proposed revisions or proposals for specifications, test suites and design guidelines of CommonWell

<sup>1</sup> KLAS — *Clinical Market Share 2015, August 2015*. © 2015 KLAS Enterprises, LLC. All rights reserved. [www.KLASresearch.com](http://www.KLASresearch.com)

<sup>2</sup> SK&A, a Cegedim Company — *“Physician Office Usage of EHR Software”*. February 2016

- Have access to generally available technical support with regard to current specifications, test suites and design guidelines of CommonWell
- Have access to generally available support documentation and materials concerning the current specifications, test suites and design guidelines of CommonWell
- Have license rights as specified in the Membership Agreement or as otherwise specified by the Board of Directors
- Ability to subscribe to services offered by the Alliance\*

**Membership Fees:** As CommonWell is a not-for-profit funded by our membership fees, membership dues will be based upon an organization's annual U.S. revenue. Available member services require applicable Commercial and Certification fees.
