

COMMONWELL HEALTH ALLIANCE MEMBER SERVICES AGREEMENT

This CommonWell Health Alliance Member Services Agreement (“Agreement”) is made effective as of the date signed by the Alliance (the “Effective Date”), by and between CommonWell Health Alliance Inc. (“Alliance”), and the Alliance Member who desires to participate in the Services (hereinafter “Participant”) (collectively the “Parties”).

BACKGROUND

The Alliance has been established to define and promote a national infrastructure with common standards and policies with regard to its Services that enable trusted data sharing among its Members who participate in the Services, their Authorized Users, and Affiliated Networks on a nation-wide basis, as each term is further defined. In order to further the foregoing mission, Alliance has procured certain services, through its Service Provider, which is made available to Participant under the terms and conditions of this Agreement and those terms incorporated by reference.

For and in consideration of the mutual covenants herein contained, the Parties hereto agree as follows:

1 DEFINITIONS

1.1 Defined Terms. Capitalized terms in this Agreement not otherwise defined elsewhere in this Agreement shall have the meanings set forth in Exhibit A.

Without limiting the generality of the foregoing, Participant otherwise shall not, and Participant shall require its Authorized Users to not, do any of the following: (i) use, market, sell or distribute the Services except as expressly authorized in an approved Use Case; (ii) license or sublicense the Services to any person or entity other than an Authorized User; (iii) make the Services available to any entity other than an Authorized User; (iv) rent, lease, grant a security interest in or otherwise transfer or attempt to transfer any rights in or to the Services; or (v) remove, alter or deface any legends, restrictions, product identification, copyright, trademark or other proprietary notices from the Services.

2.3 Data Use Restrictions. Participant shall: (i) access or use Data acquired through the Services solely for and in compliance with an approved Use Case and only for and in accordance with Permitted Purposes in accordance with a compliant implementation of the Alliance Specification, and; (ii) be responsible for

obtaining all necessary consents and authorizations for its Authorized Users, its own use, and disclosure of Data in and through its Participant Solution and the Services. Participant is responsible for obtaining all necessary consents and authorizations for its own (including its Authorized Users') use and disclosure of Data or PHI in and through its Participant Solution regardless of whether the Data was received through the Services or otherwise.

2.4 Alliance License to Use Data and PHI. Participant grants Alliance the right to use data, including but not limited to Data, PHI and de-identified PHI acquired through the Services: (i) to provide the Services for the benefit of the Alliance and its Members; (ii) to improve the Services, and; (iii) for system administration of the Services, and for no other purposes. Alliance may de-identify PHI and store Health Data and de-identified PHI for the purposes of performance testing, trouble shooting and improving the Services related to approved Use Cases. For the avoidance of doubt, any reference to Alliance in Section 2 shall mean Alliance and its Service Provider(s). The Parties acknowledge that additional Use Cases may be approved that are not currently contemplated, and such additional Use Cases may include access to Affiliated Networks, and may require changes in compliance obligations.

3 THE SERVICES.

3.1 User Management. Where Participant provides access to the Services in a manner requiring a user to use Login Credentials, Participant agrees to institute an Authorized User management process including but not limited to: (i) a process to designate and terminate Authorized Users and their Permitted Users, including the issuance of usernames and passwords, (ii) registration of Authorized Users, (iii) Participant and Authorized User obligations to ensure each Authorized User and Permitted User is appropriately credentialed and/or authenticated in accordance with Alliance Policies, (iv) reporting requirements regarding adverse changes to licensing status, and (v) a process for Participant and its Permitted Users to report any adverse changes to Authorized User and Permitted User qualifications.

3.3 Regulatory. Alliance is not responsible for Participant, or any Authorized User, or Downstream Authorized User's compliance with any legal or regulatory requirements imposed on or through the use of the Services. Future regulations or industry practices may affect performance of the Services and require Alliance, Service Provider, Participants, or other Authorized Users to meet additional regulatory requirements or to discontinue using some or all of the Services. In the event a Party receives written notice from a regulatory authority with jurisdiction over such Party, or with jurisdiction over the subject matter of the Services, that requires or advises such Party to alter or discontinue its provision or use of the Services, the Parties will negotiate in good faith to execute an amendment to this Agreement within ninety (90) days

after receipt of such notice (or sooner if required by the regulatory authority or Applicable Law), in as narrow a manner and scope as is necessary to comply with such notice. If, after the Parties have engaged in such good faith negotiations, either Party determines in good faith that such an amendment is not reasonably possible, then such Party may terminate this Agreement upon thirty (30) days' advance written notice.

3.4 Implementation Plan. If applicable, the Parties shall use commercially reasonable efforts to follow the implementation plan that specifies the performance of Implementation Services as well as all prerequisite tasks that a Participant and Authorized User shall complete in preparation for, and during, the implementation process ("Implementation Plan") as set forth in Exhibit E. The Parties understand and acknowledge that the timeframes specified in an Implementation Plan represent good faith estimates and are subject to change, depending on variables encountered in the implementation process. No Party is obligated to perform to the extent such performance is adversely affected by the other Party's failure to adhere to the Implementation Plan. The Implementation Plan may also include hardware, software, environmental, connectivity, and other specifications, dependencies, or conditions that must be met prior to implementation, as well as for Authorized User's use, of the Services.

In the event that the Participant becomes aware of a material non-compliance with any of the obligations stated in the EULA or any applicable Alliance Policy by one of its Authorized Users, then Participant shall promptly notify the Authorized User in writing that its failure to correct any such deficiencies within the stated timeframe constitutes a material breach of the Authorized User Agreement, which may result in termination of such agreement.

4.5 External Transaction Services Terms. Participants that utilize Services that include transactions allowed by Alliance but governed by third parties ("External Transaction Services"), understand and agree that they shall comply with the terms and conditions applicable to such services, which are available here www.commonwellalliance.org/policies/ and which are incorporated herein. Alliance or the third party may terminate Participant's access to the effected services in the event Participant refuses to agree to any applicable amendments.

4.6 Marketplace Service Provider Terms. Participants that use or provide Marketplace Services shall enter into commercially reasonable terms and conditions related to such services. To facilitate the contracting process between the parties with regards to such services, the Alliance offers a sample Marketplace Services Agreement available to Participants which is available here www.commonwellalliance.org/commonwell-MP-Sample. 6 AMENDMENTS

This Agreement, and any attachments, exhibits or policies incorporated by reference into this Agreement, may be amended by Alliance from time to time provided that Alliance first provides notice and an opportunity to provide feedback on the draft proposed amendment and an opportunity to object in accordance with this section. Alliance will provide Notice of any proposed amendment to Participant and all other Participants at least ninety (90) calendar days prior to the proposed effective date of the amendment. Alliance will accept feedback on the draft proposed amendment from Participant and all other Participants for fourteen (14) calendar days, and will provide final text of the proposed amendment to Participant and all other Participants no later than sixty (60) calendar days prior to the effective date of the amendment. Participant shall have thirty (30) days from the date of the publication of the final text to advise Alliance in writing if the Participant objects to the proposed amendment and the specific reasons for its objection. If more

than one-third (1/3) of all Participants object to the proposed amendment, then the amendment shall not go into effect. Otherwise, the amendment shall be effective at the end of the ninety (90) day notice period. Participant shall be required to sign any amendment approved in accordance with this section or terminate participation in the Services by providing at least sixty (60) days prior written Notice of such termination to Alliance. No amendment to this Agreement shall be proposed to Participant unless such amendment is proposed to all other Participants. Notwithstanding the foregoing, if Alliance determines, based on advice from legal counsel, that an amendment is required in order for Alliance to remain in compliance with Applicable Law, Alliance is not required to provide Participant and other Participants with an opportunity to object to the amendment.

7 PRICING AND PAYMENTS

7.1 Fees and Invoicing Terms. Participant shall pay Alliance all applicable fees and charges for the implementation and operation of the Services in accordance with Exhibit B. Participant shall be responsible for the payment of any applicable fees associated with its use of any External Transaction Services.

7.2 Expenses. Neither Party will be responsible for expenses incurred by the other relating to the subject matter of this Agreement unless such expenses were authorized in writing by an authorized representative of such Party. Any such expenses must be authorized in advance by the Party, reasonably incurred and documented, and in conformance with its own travel reimbursement policy which if applicable will be provided upon request.

7.3 Taxes. All amounts payable in connection with this Agreement are exclusive of sales, use, and value-added taxes and withholding taxes. Each Party is responsible for the payment of its own taxes.

8 TERM AND TERMINATION

8.1 Term. The term of this Agreement shall commence on the Effective Date and continue for the thirty-six (36) months from the Effective Date (the "Initial Term"). At the end of the Initial Term, the Agreement will automatically renew for additional subsequent one (1) year periods (each a "Subsequent Renewal Term", collectively, the "Term") unless either Party provides notice of its intent not to renew the Agreement at least one hundred and twenty (120) days prior to the end of the then current Term, unless otherwise terminated in accordance with Section 8.2.

8.2 Termination for Cause. Either party may terminate the Agreement upon notice if the other: (i) materially breaches the Agreement and fails to remedy, or fails to commence reasonable efforts to remedy, such breach within thirty (30) days after receiving notice of the breach from the terminating Party, (ii) infringes or misappropriates the terminating Party's (including its licensor's) Intellectual Property Rights and fails to remedy, or fails to commence reasonable efforts to remedy, such breach within thirty (30) days after receiving notice of the breach from the terminating Party, (iii) materially breaches this Agreement in a manner that cannot be remedied, or (iv) commences dissolution proceedings or ceases to operate in the ordinary course of business. Alliance may suspend the Services or terminate this Agreement upon thirty (30) days' notice to Participant in the event Participant fails to pay any Alliance, Service Provider, or other fees or charges related to membership in the Alliance, the Services, or other services or offerings made available through the Services or the Alliance, if the failure to pay such fees remains uncured at the end of such notice period. This Agreement shall terminate automatically and without notice in the event Participant's membership in the Alliance is terminated for any reason. Unless the Alliance has agreed in writing to an exception, Participant's Membership Agreement, and Participant's Membership in the Alliance, shall be terminated automatically in the event this Agreement is terminated for Cause by Alliance.

8.3 Obligations upon Termination.

8.3.1 Neither the Alliance nor Service Provider will be obligated to provide any Services to Participant if Participant is in breach of any material terms of this Agreement, including Participant's obligation to pay applicable fees. Upon Termination and for a period of sixty (60) days, Data Migration Services shall be available on a time and materials basis from Service Provider, in accordance with an agreement mutually agreed upon between Service Provider and Participant. "Data Migration Services" shall mean those services and access necessary for the transitioning party to complete its transition, including without limitation, access to a person's records and applicable document links.

8.3.2 Participant will promptly cease using and destroy or return to Alliance and Service Provider, at either's request, all advertisements and promotional materials that bear such Service Provider or the Alliance's Marks and all Confidential Information of Alliance and Service Provider; Participant will promptly: (i) cease use of the Services; and (ii) certify in writing to Alliance that Participant has complied with its obligations under this section; and (iii) each Party will, promptly return to the other Party or destroy all copies (including partial copies) of Confidential Information disclosed by the other Party and certify in writing to the other Party that it has complied with its obligations under this section. Participant acknowledges its obligations under this section apply to Confidential Information of Service Provider.

The following provisions of this Agreement shall survive termination or expiration of this Agreement and will remain in full force and effect: 1.1 (Defined Terms); 2.4 (Alliance Licenses to Use Data and PHI); 3.4 (Regulatory); 4.1 (Business Practices); 4.4 (Participant Warranties); 7 (Pricing and Payment); 8 (Term and Termination); 9 (Confidentiality); 10 (Intellectual Property); 12 (Limitation of Liability); 13 (Third Party Beneficiaries), 14 (Dispute Resolution), and; 15 (General Terms).

9. **CONFIDENTIALITY**

9.1 Confidentiality. Alliance and Participant may disclose to the other their Confidential Information, and the use of the Services may allow the parties to receive the Confidential Information of other Participants, Authorized Users, or Individuals. Except as expressly permitted by this Agreement, neither Party will: (i) disclose any other party's Confidential Information except (ii) to its Permitted Users, including employees, contractors, or service providers, and representatives who have a need to know and are bound by confidentiality terms no less restrictive than those contained in this section, or (a) to the extent required by Applicable Law following prompt notice of such obligation to the other Party; or (b) use or reproduce another party's Confidential Information for any purpose other than performing its obligations under this Agreement or enjoying the rights granted under this Agreement. Each Party will use reasonable care in handling and securing Confidential Information that it receives in or through the Services by employing commercially reasonable security measures used for its own proprietary information of similar nature. For the purpose of this section, Alliance shall include Alliance, and its employees, contractors, agents, board of directors, and representatives, who may receive Confidential Information during their involvement with the Alliance, and Alliance shall obligate such persons to comply with obligations of confidentiality at least as protective as those in this Agreement.

9.2 Period of Confidentiality. The restrictions on use, disclosure and reproduction of Confidential Information set forth herein, with respect to Confidential Information that constitutes a "trade secret" (as that term is defined and applicable under Applicable Law), shall be perpetual, and will, with respect to other Confidential Information, remain in full force and effect during the Term and for three (3) years following the termination of this Agreement.

9.3 Injunctive Relief. The Parties agree that the breach, or threatened breach, of another Party's Confidential Information or Intellectual Property Rights may cause irreparable harm without adequate remedy at law. Upon any such breach or threatened breach, a Party will be entitled to seek injunctive relief

to prevent the other Party from commencing or continuing any action constituting such breach. Nothing in this section will limit any other remedy available to either Party.

10 INTELLECTUAL PROPERTY

10.1 Alliance Ownership. As between Alliance and Participant, Alliance shall retain all rights title and interest in and to Alliance Confidential Information and Alliance Background Technology. Except as otherwise provided in this Agreement, nothing in this Agreement will be deemed to transfer any ownership interest to Participant, or other party, in Alliance Background Technology, Alliance Confidential Information, or Third- Party Materials provided by Alliance. Ownership of all right, title and interest in and to the Intellectual Property Rights in the Alliance Specification shall be governed by the terms of the Alliance Membership Agreement. Licensing of the Alliance Specification shall be governed by the Membership Agreement and other licenses applicable to the use of the Alliance Specification that are approved and made available by the Alliance.

10.2 Participant Ownership. As between Alliance and Participant, Participant will own all right, title and interest in and to the Participant Confidential Information, Participant Solution, and Participant Materials, including any and all Intellectual Property Rights therein. The Alliance agrees not to take any step to disassemble, decompile, or reverse engineer or otherwise derive a source code equivalent of the software in the Participant Confidential Information or to permit any third party to do so; provided, however, nothing in the foregoing shall prevent Alliance from exercising the rights granted in this Agreement in such Confidential Information. Nothing in this Agreement will be deemed to transfer any ownership interest to Alliance or any other party in such Participant Confidential Information, Participant Solution and Participant Materials or Third Party Materials provided by a Participant to Alliance. Any Participant Solution, Participant Materials or Third Party Materials provided by Participant to Alliance and any modifications thereto are, and shall remain, the property of Participant or a third party, as applicable.

10.3 Service Provider Ownership. The Parties agree that as between Participant and Service Provider, Service Provider shall own all right, title and interest in and to Service Provider Confidential Information and Service Provider Technology, including Service Provider's Background Technology and any Existing Service Provider Offerings. Nothing in this Agreement will be deemed to transfer any ownership interest to Participant, or to any other participant, or other party, in Service Provider Technology, Existing Service Provider Offerings, or Third-Party Materials provided by Service Provider to Participant or any other participant.

10.4 Feedback and General Knowledge. Participant may from time to time identify problems, solutions to identified problems, provide suggestions, comments or other feedback related to the Services ("Feedback") to Alliance. Participant will not provide Feedback that includes Confidential Information of Participant or third party. Participant grants Alliance a non-exclusive, royalty-free, fully paid, perpetual, non-revocable, sub-licensable, license in and to its Intellectual Property Rights (except for any patent or trademark rights) in and to its Feedback to develop, manufacture, make, have made, reproduce, have reproduced, modify, use, export, import, create derivative works of, offer to sell and sell such Feedback with the Services or other products and services or to grant others the right to do so. Each Party retains the right to use any generalized knowledge, ideas, concepts, techniques, methodologies, practices, processes and know-how learned by its personnel in the course of performing services in connection with this Agreement, whether learned prior to, on or after the Effective Date.

10.5 No Implied Rights. Except as may be expressly stated in writing, nothing contained herein or implied pursuant to the business relationship between the Parties shall be construed to give any implied rights or interests to one Party in the rights or interests of any other Party in such Party's Intellectual Property Rights.

10.6 Intellectual Property Infringement and Indemnification by Participant.

10.6.1 Duty to Defend and Indemnification. Participant will defend, indemnify, and hold the Alliance, its officers, directors, and representatives (“Indemnified Parties”) harmless, from any action or other proceeding brought by a third party against the Indemnified Parties at Participant’s sole cost and expense to the extent that such action or proceeding is based on a claim by a third party that (a) the use or sale of the Participant Materials or Participant Solution infringes any U.S. copyright or U.S. patent, (b) the Participant Materials or Participant Solution incorporate any misappropriated trade secrets, or (c) any Participant trademark or service mark provided by Participant infringes any U.S. trademark or service mark. Participant will pay any damages finally awarded against Indemnified Parties, including any award of costs, as a result thereof; provided, that the Indemnified Parties (i) notifies Participant of the claim as promptly as practical, but in any event timely enough so as not to prejudice any defense, (ii) provides Participant with all reasonably requested cooperation, information and assistance, and (iii) gives Participant sole authority to engage defense counsel, control the litigation, and defend and settle the claim at the Participant’s sole cost and expense. For the avoidance of doubt, so long as the Participant is satisfying the obligation to the Indemnified Parties to defend and settle the claim at the Participant’s sole cost and expense, Participant will not be obligated to reimburse Indemnified Parties for any attorneys’ fees for attorneys engaged by any Indemnified Party or other costs and expenses incurred at the direction of any Indemnified Party to defend or settle the claim. For the avoidance of any doubt, with respect to any claims that are Participant Combination Claims (as defined in Section 10.6.2 below), Participant will indemnify the Indemnified Parties for expert witness fees for experts engaged by both Participant and the Indemnified Parties, but will not indemnify the Indemnified Parties for expert witness fees or other costs solely attributable to the Indemnified Party, such as e-discovery costs.

10.6.2 Exclusions. Participant will have no obligations under Section 10.6.1 to the extent a claim arises from any use by Indemnified Parties of Participant Materials, Participant Solutions, or Participant trademarks in a manner not contemplated by this Agreement or the Documentation, or use of the Participant Materials or Participant Solutions in combination with products, services or activities not provided by Participant unless (i) Participant Materials or Participant Solutions provided by the Participant perform the point(s) of novelty of the invention in the asserted patent, (ii) none of the limitations in any asserted patent claim are met by a design choice made by Indemnified Parties for which there existed a reasonable, non-infringing substitute, and (iii) any limitations of any asserted patent claim(s) that are attributable to products, services or activities of Indemnified Parties combined with the Participant Materials or Participant Solutions are insubstantial to the point(s) of novelty, for example, the combination of the Participant Materials or Participant Solutions with a generic network or one or more staple hardware elements (i.e., generic display, storage media) when such combined elements are insubstantial to the point(s) of novelty (“Participant Indemnified Combination Claims”).

10.6.3 Infringement Remedies. If a claim of infringement or misappropriation for which an Indemnified Party is entitled to be indemnified under Section 10.6.1 arises, then Participant may, at its sole option and expense: (i) obtain for an Indemnified Party the right to continue using the Participant’s trademark, Participant Solutions or Participant Materials or (ii) terminate the affected Services license and terminate Participant’s rights and obligations under this Agreement with respect to such Services.

10.6.4 Exclusive Remedy. THE FOREGOING IS PARTICIPANT’S SOLE AND EXCLUSIVE OBLIGATIONS, AND THE INDEMNIFIED PARTIES’ SOLE AND EXCLUSIVE REMEDIES, WITH RESPECT TO INTELLECTUAL PROPERTY INFRINGEMENT OR TRADE SECRET MISAPPROPRIATION.

11 **TRADEMARKS**
