CommonWell Core Services

Patient Identification & Linking

Assist health IT suppliers to more quickly and accurately identify patients as they transition through care facilities

Record Locator

Help providers locate and access their patients' records, regardless of where the encounter occurred, by providing a "virtual table of contents" that documents available data from each encounter location

## Patient Privacy & Consent Management

Deliver a patient-authorized means to simplify management of data sharing consents and authorizations

Secure Data Access

Provide certification, authentication and auditing services that facilitate consistent trusted data sharing among member systems

CommonWell Health Alliance for Record Locator Service

CommonWell Services

+ **Identity Management**
+ **Consent Management**
+ **Record Locator**
+ **Document Query**
+ **Document Retrieval**

Trusted Data Access

commonwell HEALTH ALLIANCE

Benefits and Differentiators

More access to relevant patient information	Faster, easier, more cost effective access	Leadership
+ More relevant data through stronger matching and validation	+Centralized patient matching, consent and record location services	+Help drive significant industry change
+Access data from health IT systems– go beyond state or local HIEs or any one vendor's network	+Embedded in EHR for universal interoperability and care coordination	+Support the public interest in improving access to the complete record
+Data is fetched real time from health systems– no central repository	+Lower cost of access/implementation – fewer interfaces
