Initial Service Provider RelayHealth CONNECTED

CommonWell Core Services

Patient Identification & Linking

Assist health IT suppliers to more quickly and accurately identify patients as they transition through care facilities

Record Locator

Help providers locate and access their patients' records, regardless of where the encounter occurred, by providing a "virtual table of contents" that documents available data from each encounter location

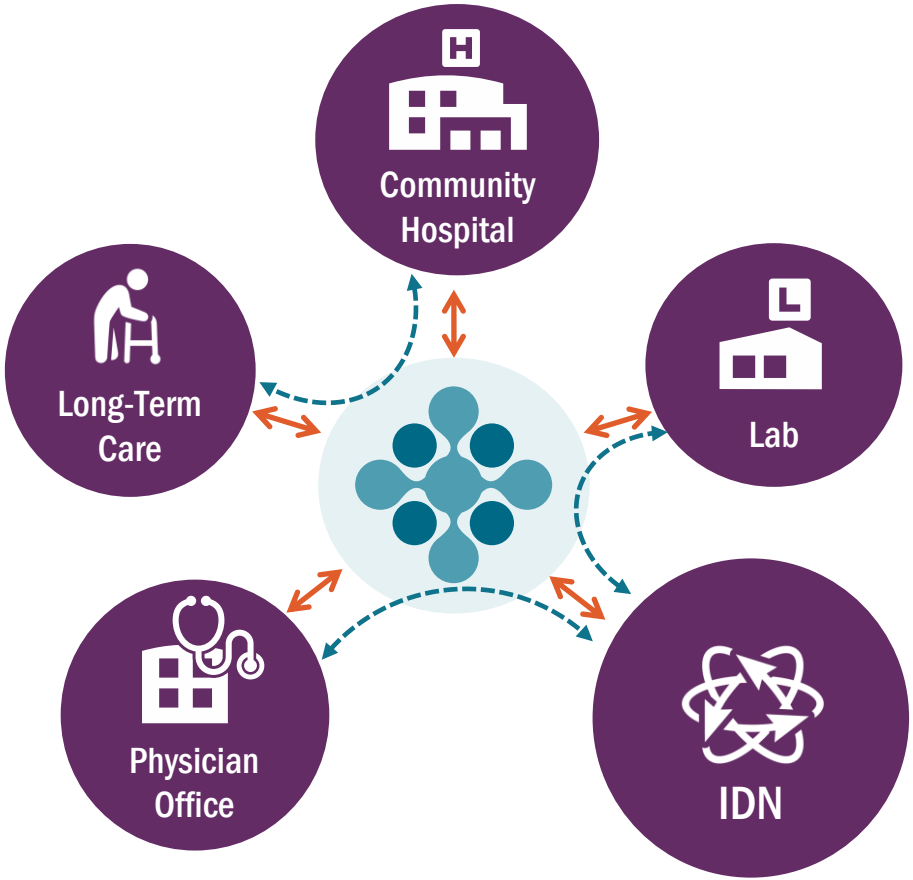
Patient Privacy & Consent Management

Deliver a patient-authorized means to simplify management of data sharing consents and authorizations

Secure Data Access

Provide certification, authentication and auditing services that facilitate consistent trusted data sharing among member systems

CommonWell Health Alliance for Record Locator Service



CommonWell Services

+ Identity Management
+ Consent Management
+ Record Locator
+ Document Query
+ Document Retrieval

Trusted Data Access

Benefits and Differentiators

More access to relevant patient information

+ More relevant data through stronger matching and validation

+Access data from health IT systems– go beyond state or local HIEs or any one vendor's network

+Data is fetched real time from health systems– no central repository

Faster, easier, more cost effective access

+Centralized patient matching, consent and record location services

+Embedded in EHR for universal interoperability and care coordination

+Lower cost of access/implementation – fewer interfaces

Leadership

+Help drive significant industry change

+Support the public interest in improving access to the complete record

In **Phase 1**, you can use the most common log messages described below to troubleshoot CommonWell issues. If you've been directed to this page with a log message, use Find (Ctrl+F) to search issue to Support.

In **a future phase**, each log message will link to its specific troubleshooting information in the Management Portal.

Log Message List

Message Code	Message Text	Category	Common Causes
00403	403 - Forbidden: Access is denied.	Person Management	Issue with client certificate.
04008	Aggregated response generated OK	XCA Query	CommonWell successfully generated aggregated response.
04059	DCL: Document location stored OK	XCA Query	Document location stored OK.
04060	DCL: Document ID collision detected.	XCA Query	This would be caused by a duplicate document id being used in the system.
04066	GetAggregatedGatewayQueryResponse: Exception:	XCA Query	This message is displayed when calling GetTestGatewayQueryResponse. This is part of testing for the gateway.
04067	ProcessDocumentQueryRequests: Query response null for fanout request worker in FanoutRequestManager of DocumentQuery.Service.	XCA Query	Error occurred in external service.
04068	Exception in FanoutRequestManager of DocumentQuery.Service.	XCA Query	Error occurred while executing query.
04071	ProcessDocumentRequest: Exception:	XCA Query	Error occurred while executing query to XCA gateway.
04072	Exception in FanoutRequestManager of DocumentQuery.Service.	XCA Query	Unknown internal error occurred.
